

SUPERTOOTH

TRUE WIRELESS EARBUDS

**5 good reasons to choose
SuperTooth TW1**

What's the TW1 « True-Wireless » earbuds ?

TW1 is made of two wire-free in-ear Bluetooth earbuds.

You can listen your favorite songs in stereo mode (Left and Right) from any Bluetooth device (smartphone, tablet...).

TW1 has a built-in microphone which allows you to make phone calls.

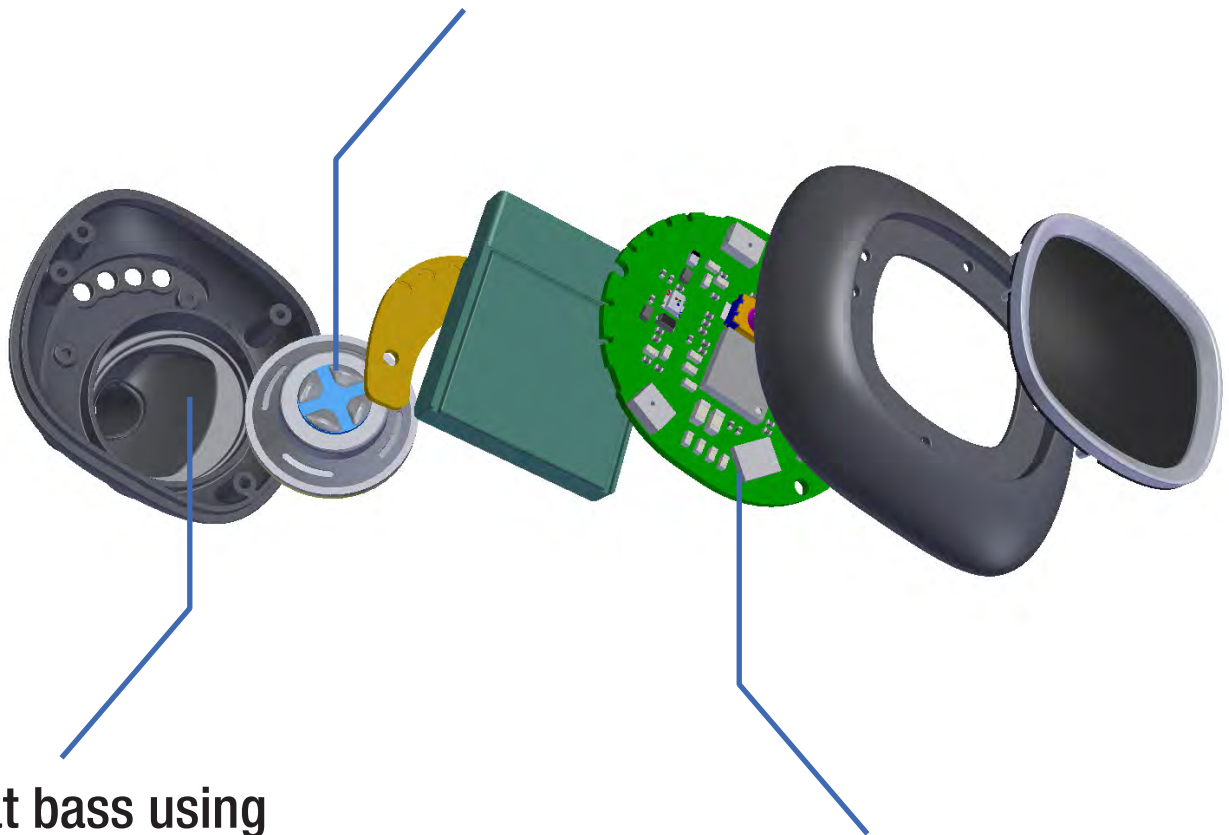

Perfect for people who like movies and music, during sport, or while travelling.

1 - Superior Audio performance

Enjoy the highest quality from our **Supertooth TW1**. Its design is completely unique with a 14mm driver, linked to a DSP audio enhancer to achieve increased resolution and a more natural musical experience.

Best sound with the most advanced audio driver

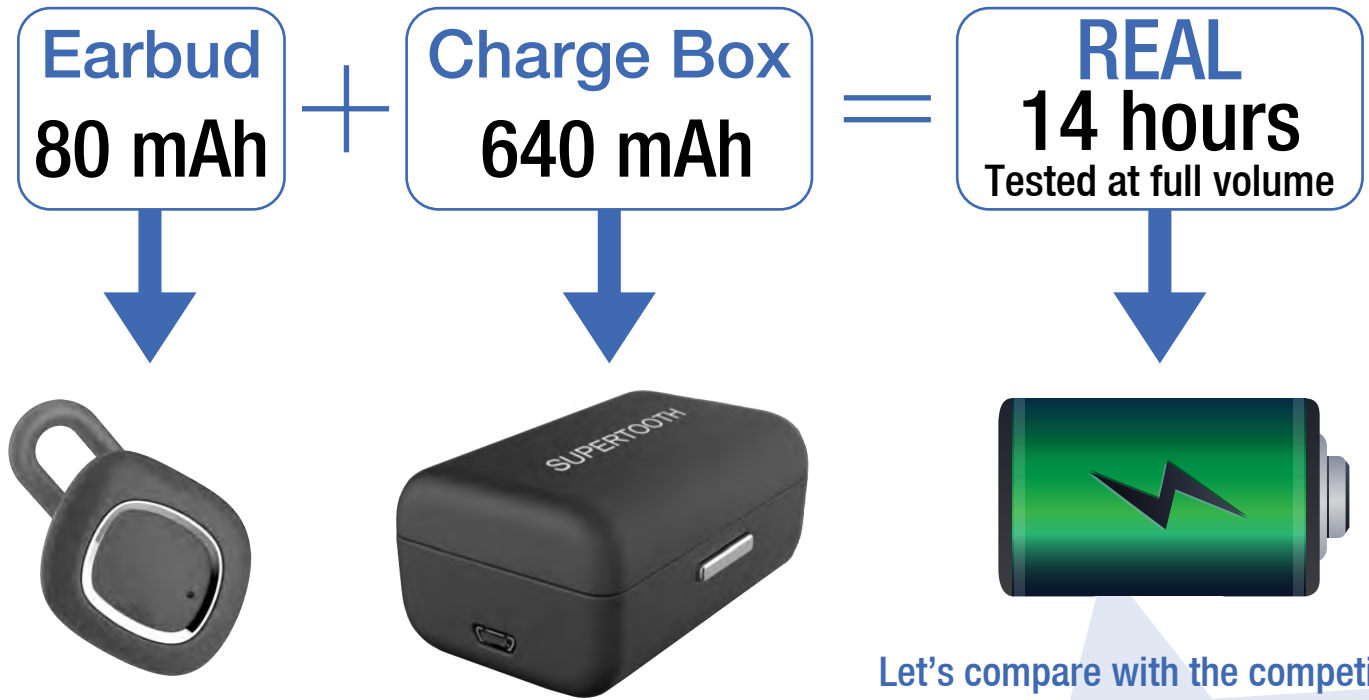

Great bass using an integrated subwoofer box

High fidelity level for crystal clear stereo

Product	 SUPERTOOTH	 Jabra	 Hero	 Onkyo	 Erato
Driver	14 mm	6.8 mm	8 mm	8.6 mm	8.6 mm

2 - Long lasting battery

With up to 4 hours usage and a box that gives 10 hours of additional charge, the **Supertooth TW1** sets itself apart from the competition.

SuperTooth TW1 allows you to watch a complete movie and listen to your favorites tracks during long flight, while traveling to work or doing sport.

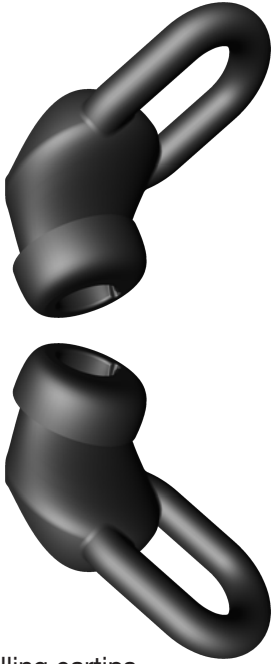

Let's compare with the competition (battery life + retail price)

- Bragi the headphone - 6 hours - 169 euros
- Samsung Icon X - 9 hours - 200 U\$D
- Jaybird run - 12 hours - 199 euros
- Jabra Sport Elite - 13 hours - 299 euros
- Bose SoundSport Free - 15 hours - 250U\$D

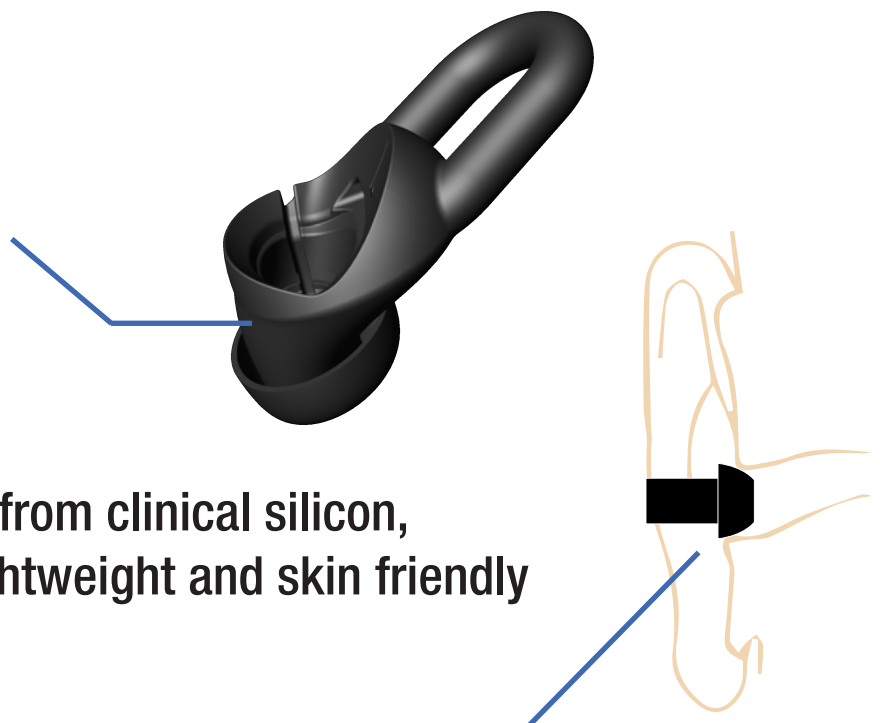

3 - Comfortable and stable

Suitable for sport, listening music or watching a movie, these lightweight and soft earbuds stay securely in your ears during all activities.

Perfectly fits all ears	Small	Standard	Noise Cancelling
			

TW1 Pack includes 4 regular eartips + 2 noise-cancelling eartips

The noise cancelling eartip, provided in the package, remove background noise

Made from clinical silicon, it's lightweight and skin friendly

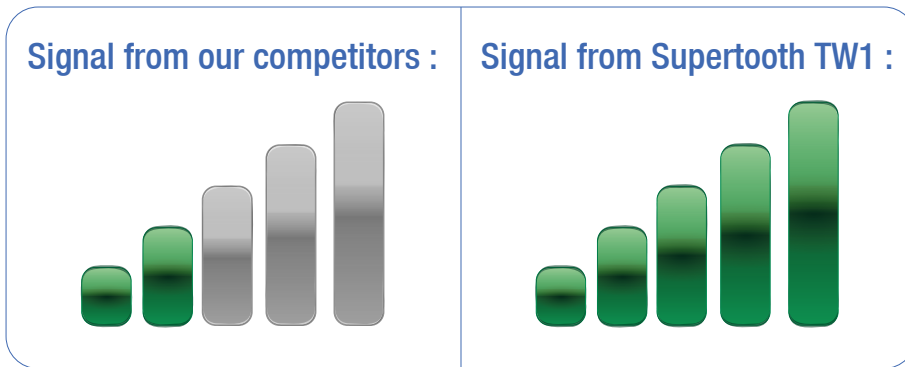

Boost the sound with amazing bass while using the noise cancelling eartip

4 - Most stable connectivity

The high gain antenna provides an optimized transmission and directivity pattern, in order to sustain a great and reliable connection.

The sound will never cut out !

Automatic connection between TW1 and Bluetooth® phone :

Pull out both earbuds
from the charging box

TW1 is automatically
connected to your phone

The fastest and easiest way to turn off :

Dock the earbuds in the charging box,
they automatically go off and charge.

5 - Affordable for premium quality

The **Supertooth TW1** is a high-quality true wireless earbud at attractive price. It's a top of the range product with reliability, durability and excellence.
